

ENVIRONMENT MANAGEMENT POLICY

At Sammaan Capital, we are committed to adopt responsible environmental practices that contribute towards sustainable development.

We always strive to find innovative ways to carry out our operations in a way that protects the environment and reduces our carbon footprints. We encourage all our stakeholders and business partners to support us in enhancing our environmental performance so that we continuously raise benchmarks.

Sammaan Capital is committed to a clean, safe and healthy work environment, and we shall operate our facilities in an environmentally sensitive and responsible manner to ensure that we comply with all applicable compliance obligations.

Framework:

- Complying with the requirements and spirit of applicable environmental laws and striving to exceed required levels of compliance.
- Making business decisions that aim towards sustainable development.
- Conserving natural resources and preventing pollution by reducing, reusing and recycling materials.
- Engaging in an environmentally friendly culture and a safe working environment.

Commitments:

- Continuously improving Sammaan Capital resource efficiency by optimally using resources like paper, electricity and water.
- Reducing the carbon footprint intensity by foraying into digital platforms for all communication and processes, thereby minimising paper waste.

Our Course - correct includes :

- Reviewing our policy on a timely basis to ensure that it is periodically updated and stands relevant to all our stakeholder expectations and business operations.
- Conducting self-assessments and audits at regular intervals in order to measure the progress on environmental performance.
- Integrating sustainable environmental frameworks in the design of newer infrastructural facilities.
